

ONE TOOLKIT TO UNLOCK THE FULL POWER OF NIAGARA 4

Amplify is a toolkit of advanced visualization and analysis components for Niagara 4 that revolutionizes what Niagara stations can consist of. With an emphasis on familiarity and workflow efficiencies, the toolkit brings building automation and utility metering graphical use interfaces to the next level.

The **Amplify** toolkit is fully licensed based on the point count in the Niagara 4 Station. Unlicensed Stations get a free 7-day trial where each product in the toolkit can be tested and configured within the trial window.

Amplify your Niagara 4 UI today!

BoostPx™

Accelerate Niagara PX graphic development with modernized widgets & templates.

Clockworks FDD Service™

Bring Clockworks fault detection diagnostics directly into Niagara.

Layers™

Visualize and compare zone-level system data directly within building floor plans.

Niagara Notes™

Capture operational notes and insights directly within Niagara.

Station Health™

Monitor Niagara station performance and identify issues across your network.

Visual HVAC™

Explore HVAC equipment through immersive 360° visualizations.

OPTIONS AND COST

Essentials	Professional	Enterprise ²
2,500 or less	5,000 or less	100,000 or less
Point Limit	Point Limit	Point Limit
\$650	\$1,300	\$7,500
Cost	Cost	Cost
\$130	\$260	\$1,500
SMA Yearly Fee ¹	SMA Yearly Fee ¹	SMA Yearly Fee ¹

1. Any module builds released within one year of the purchase date are covered in the original purchase. The SMA Yearly Fee is the cost to extend the license SMA expiration by one year, which grants access to newer module builds. Module features do not expire.
2. For Niagara Stations larger than 100,000 points, Custom Enterprise pricing is available. Reach out to us for assistance.

FEATURES AND HIGHLIGHTS

BoostPx™

- SVG Library
- Widget Library
- Template Library
- Navigation Wrapper
- Dark Mode
- Familiar Configuration

Niagara Notes™

- Notes & Tasks
- Timestamped Information
- Color-Coded Labeling
- Reply Functionality
- User Groups
- Note Archiving

Clockworks FDD Service™

- Drag & Drop Widgets
- Dashboard View
- Prioritized Diagnostics
- Task Management
- Building Card
- Asset Card

Station Health™

- 80+ Station Variables
- Key Performance Indicator (KPI)
- Email Reporting
- Dashboard View
- CPU & Engine Watchdog

Layers™

- Temperature Spectrum Analysis
- Integrated Zone Table
- AHU Mapping
- Room Type Mapping
- Multi-Floor View Port

Visual HVAC™

- 360° Tour
- Equipment Tagging
- Card Hotspots
- IOM Manuals
- Graphic Modals
- Embed in PX
